Comunicación científica tradicional

Los investigadores logran unos resultados y quieren comunicarlos mediante una revista con revisión

Cuando se acepta la contribución, los autores firman una cesión de derechos, normalmente exclusiva, hacia a la publicación.

Los autores pierden sus derechos y tienen que pedir permiso para reutilizar su obra

Derechos de explotación

Los investigadores ceden para todo el mundo y para toda la duración de los derechos de autor:

Reproducción

Distribución

Comunicación Pública

Transformación

Los investigadores retienen los derechos morales si están contemplados.

COPYRIGHT TRANSFER AGREEMENT

Date: _____ Contributor name: _____

Contributor address: _____

Manuscript number (if known): _____

Re: Manuscript entitled: _____

_____ (the "Contribution")

for publication in _____ (the "Journal")

published by _____ ("Wiley-Blackwell").

Dear Contributor(s):

Thank you for submitting your Contribution for publication. In order to expedite the editing and publishing process and enable Wiley-Blackwell to disseminate your Contribution to the fullest extent, we need to have this Copyright Transfer Agreement signed and returned as indicated in the Journal's instructions for authors as soon as possible. If the Contribution is not accepted for publication, or if the Contribution is subsequently rejected, this Agreement shall be null and void. **Publication cannot proceed without a signed copy of this Agreement.**

A. COPYRIGHT

1. The Contributor assigns to Wiley-Blackwell, during the full term of copyright and any extensions or renewals, all copyright in and to the Contribution, and all rights therein, including but not limited to the right to publish, republish, transmit, sell, distribute and otherwise use the Contribution in whole or in part in electronic and print editions of the Journal and in derivative works throughout the world, in all languages and in all media of expression now known or later developed, and to license or permit others to do so.

2. Reproduction, posting, transmission or other distribution or use of the final Contribution in whole or in part in any medium by the Contributor as permitted by this Agreement requires a citation to the Journal and an appropriate credit to Wiley-Blackwell as Publisher, and/or the Society if applicable, suitable in form and content as follows: (Title of Article, Author, Journal Title and Volume/Issue, Copyright © [year], copyright owner as specified in the Journal). Links to the final article on Wiley-Blackwell's website are encouraged where appropriate.

B. RETAINED RIGHTS

Notwithstanding the above, the Contributor or, if applicable, the Contributor's Employer, retains all proprietary rights other than copyright, such as patent rights, in any process, procedure or article of manufacture described in the Contribution.

C. PERMITTED USES BY CONTRIBUTOR

1. **Unpublished Version.** Wiley-Blackwell licenses back the following rights to the Contributor in the version of the Contribution as originally submitted for publication:

- After publication of the final article, the right to self-archive on the Contributor's personal website or in the Contributor's institution/employer's institutional repository or archive. This right extends to both instant and the Internet. The Contributor may not update the submission version or replace it with the published Contribution. The version posted must contain a legend as follows: This is the pre-peer reviewed version of the following article: [Full CIT], which has been published in final form at [link to final article].
- The right to transmit, post and share copies with colleagues.

2. **Accepted Version.** Re-use of the accepted and peer-reviewed but not final version of the Contribution shall be by separate agreement with Wiley-Blackwell. Wiley-Blackwell has agreements with certain funding agencies governing re-use of this version. The details of these relationships, and other offerings allowing open web use, are set forth at the following website: <http://www.wiley.com/go/funderstatement>. All partners should check the box at the bottom of this document.

3. **Final Published Version.** Wiley-Blackwell hereby licenses back to the Contributor the following rights with respect to the final published version of the Contribution:

- Copies for colleagues. The personal right of the Contributor only to send or transmit individual copies of the final published version in any format to colleagues upon their specific request provided no fee is charged, and further provided that there is no systematic distribution of the Contribution, e.g. posting on a listserve, website or automated delivery.
- Re-use in other publications. The right to re-use the final contribution or parts thereof for any publication authored or edited by the Contributor (including journal articles) where such re-used material constitutes less than half of the total material in such publication. In such case, any modifications should be accurately noted.
- Teaching duties. The right to include the Contribution in teaching or training duties at the Contributor's institution/place of employment including in course packs, e-resources, presentation at professional conferences, in-house training, or distance learning. The Contribution may not be used in seminars outside of normal teaching obligations (e.g. commercial seminar). Electronic posting of the final published version in connection with teaching/training at the Contributor's institution/place of employment is permitted subject to the implementation of reasonable access control mechanisms, such as user name and password. Posting the final published version on the open Internet is not permitted.
- Oral presentations. The right to make oral presentations based on the Contribution.

4. **Article Abstracts, Figures, Tables, Data Sets, Artwork and Selected Text (up to 250 words).**

- Contributors may re-use unmodified abstracts for any non-commercial purpose. For on-line use of the abstracts, Wiley-Blackwell encourages but does not require linking back to the final published version.
- Contributors may re-use figures, tables, data sets, artwork, and selected text up to 250 words from their Contributions, provided the following conditions are met:
 - Full and accurate credit must be given to the Contribution.
 - Modifications to the figures, tables and data must be noted. Otherwise, no changes may be made.
 - The reuse may not be made for direct commercial purposes, or for financial consideration to the Contributor.
 - Nothing herein shall permit dual publication in violation of journal ethical practices.

Primera estrategia: la ruta verde

Se necesita ayuda y herramientas para depositar los artículos revisados en archivos digitales abiertos. Cuando estos archivos se ajusten a los estándares creados por la OAI, los motores de búsqueda y otras herramientas podrán tratar los archivos separados como uno único. De esta manera los usuarios no necesitarán conocer la existencia de los artículos ni saber dónde poder localizarlos para poder acceder a los contenidos.

Manifiesto de Budapest, febrero de 2002

El autoarchivo y los repositorios

- Archivo de una copia de los artículos revisados y publicados
- Versión enviada, aceptada o publicada
- Acceso gratuito, embargado o restringido
- Metadatos descriptivos estándar
- Connexión entre repositorios mediante un protocolo estándar

Comisión Europea, enero de 2014

Ley de la Ciencia

Art 37.

El personal de investigación cuya actividad investigadora esté financiada mayoritariamente con fondos de los Presupuestos Generales del Estado hará pública una versión digital de la versión final de los contenidos que le hayan sido aceptados para publicación en publicaciones de investigación seriadas o periódicas, tan pronto como resulte posible, pero no más tarde de doce meses después de la fecha oficial de publicación.

La versión electrónica se hará pública en repositorios de acceso abierto reconocidos en el campo de conocimiento en el que se ha desarrollado la investigación, o en repositorios institucionales de acceso abierto.

Publicada en el BOE el 2 de junio de 2011, entrada en vigor el 2 de diciembre de 2011

Resultado de la aplicación del artículo 37

Falta una relación de publicaciones resultantes de los proyectos financiados

Falta un identificador de los proyectos en los repositorios institucionales

Horizon 2020: Publicaciones

Se debe garantizar el acceso abierto a los resultados mediante:

- La publicación en revistas de acceso abierto, en revistas de acceso restringido por suscripción o pago que ofrezcan opciones de acceso abierto individual. Después de la publicación hay que depositar una copia en un repositorio.
- El autoarchivo del manuscrito corregido en un repositorio ofreciendo acceso al público en un plazo no superior a los 6 o 12 meses después de la publicación.

La segunda estrategia: la ruta dorada

Se necesitan medios para lanzar una nueva generación de revistas y ayudar a las actuales para hacer la transición hacia en acceso abierto: revistas que no invoquen los derechos de explotación para restringir el acceso y el uso de los materiales publicados. En cambio, emplearán estos derechos y otras herramientas para asegurar un acceso libre y permanente a todos los artículos publicados.

Ya que el precio es una barrera, estas nuevas revistas no cobrarán ni por suscripción ni para acceder y buscarán otros métodos para cubrir los gastos. Hay alternativas para percibir fondos, de fundaciones y de gobiernos que financian la investigación, de universidades y de centros con personal investigador, ... No se debe favorecer una única solución, hay que buscar alternativas creativas.

Manifiesto de Budapest, febrero de 2002

Una contribución en acceso abierto:

El autor (o los autores) y quien ostenta los derechos sobre la contribución deben conceder a todos los usuarios el derecho a acceder libremente de forma irrevocable para el ámbito mundial, con una licencia para copiar, usar, difundir, transmitir y comunicar las obras públicamente, e incluso para elaborar y distribuir las obras que se deriven, en cualquier medio digital y bajo cualquier propósito responsable, a cambio del compromiso de citar debidamente la autoría...

Declaración de Berlín, octubre de 2003

Por lo tanto, una revista de acceso abierto

- Acceso gratuito para leer, sin pagos ni suscripciones
- Varios modelos de negocio, uno de ellos pagar por publicar
- Se permite la reutilización mediante una licencia
- Idealmente la licencia de Reconocimiento (Atribución) de Creative Commons (CC BY)
- Los autores mantienen los derechos, los usuarios tienen permiso para reutilizar ampliamente.

Mientras que en una revista de «pago»

- Acceso para leer mediante pago o suscripción
- Algunas revistas también exigen pagar por publicar
- Los autores deben ceder los derechos de explotación mediante licencia o cesión exclusiva
- Usos limitados de reutilización, sólo para los autores o bajo las excepciones recogidas por la ley vigente
- Todos los derechos reservados

Cómo saber si es de acceso abierto

¿Acceso abierto=APC?

Gold Open Access Journals 2011-2015

Walt Crawford

<http://waltcrawford.name/goaj1115.pdf>

Modelo híbrido: acceso abierto individual

- Revistas de acceso restringido mediante pago o suscripción
- Pago por ofrecer acceso abierto inmediato
- Normalmente, se permite la reutilización mediante una licencia
- Variedad de licencias de Creative Commons, a menudo relacionadas con el precio para abrir el acceso
- Debería repercutir en el precio de las suscripciones

Horizon 2020: Publicaciones

- Revistas de acceso abierto
- Revistas que ofrecen opciones de acceso abierto individualizadas
- Revistas de acceso bajo pago
- Depósito en un repositorio
- Acceso al público en un plazo no superior a 6/12 meses después de la publicación en la revista,

Cómo cumplir con las políticas

1. Escoger la publicación que más convenga a los autores
2. Si es una publicación de acceso abierto, depositar una copia del documento publicado en un repositorio institucional o temático en un plazo máximo de 6 o 12 meses, según la disciplina
3. Si es una publicación de acceso restringido por pago o suscripción
 - Optar por el modelo híbrido y depositar una copia del documento publicado en un repositorio institucional o temático en un plazo máximo de 6 o 12 meses, según la disciplina
 - Consultar la política de autoarchivo de la publicación
 - Si permite el depósito en un repositorio, comprobar qué versión se puede depositar: enviada, aceptada o publicada, y en qué plazo se puede poner a disposición del público
 - Si no permite el depósito, pedirlo expresamente indicando el requerimiento de la política

Dos recomendaciones

1. Guardar siempre la versión del autor corregida (postprint)
2. Depósito inmediato, acceso público diferido

Tendencias actuales en el acceso abierto

Compensar costes de suscripción por costes por publicar

Evaluar por lo que se encuentra en los repositorios

Evitar el modelo híbrido

Revisar políticas de acceso abierto

Explorar modelos de publicación en abierto de monografías

Ampliar el acceso abierto a otros resultados: datos de investigación
